EXPERIENCE

Dawkins Family Foundation Inc., Orlando, FL — Vice President

June 2023 - Present | Remote

- Lead strategic planning and program development for a 501(c)(3) nonprofit focused on education, empowerment, and community impact
- Oversee youth initiatives including coding academies, mentorship programs, and civic engagement efforts
- Manage partnerships, fundraising, and team coordination across West Michigan, Central Florida, and Lehigh Valley, PA.
- Drive sustainable growth and ensure measurable outcomes across all regions

Dropbox, San Francisco, CA — Full Stack Engineer

May 2021 - November 2024 | Remote

- Led AI chatbot rollout to revamp tier-one support, boosting CSAT by 20% and ensuring seamless cookie-less tracking for Chrome compatibility
- Built on full-stack apps driving multimillion-dollar revenue, integrating APIs into Dropbox for scalable, user-centric solutions
- Managed real-time production monitoring and SEV events using Sentry, Kibana, and PagerDuty, safeguarding monetization pipelines and A/B testing systems

ThriveDX, Miami, FL — Lead Software Development Instructor

December 2020 - December 2023 (Part-time) | Remote

- Instructing students in programming fundamentals and equipping them with the skills necessary to become successful Software Engineers.

Service Express, Grand Rapids, MI — Senior Software Engineer

July 2020 - April 2021 | Remote

- Designed, implemented, and deployed features for legacy back-office software systems focused on PHP and MSSQL
- Partner with stakeholders and business users to achieve successful solutions.
- Developed a Salesforce API integrated system to support the sales and marketing team, written in Golang

Varsity News Network, Grand Rapids, MI — Software Engineer

August 2017 - March 2020 | Remote

- Object-oriented PHP development and Git-based version control.
- Automated testing (TDD, BDD, full-stack integration, and continuous integration) Development & Support for JS single-page applications and REST APIs using Silex and Doctrine, ReactJS, Symphony, Angularjs, Nodejs, and their supporting ecosystems.

Remote-Learner, Denver, CO — Frontend Developer

July 2018 - March 2020 | Remote

- Worked closely with Remote-Learner clients on customized solutions built on Moodle & Totara Learning Management Systems. Creating Sublime user experiences and developing AJAX-enabled, jQuery-powered user interfaces.

US Signal, Grand Rapids, MI — Senior Application Developer

October 2015 - May 2016 (PHP Analyst)

June 2016 - January 2017 (Application Developer)

January 2017 - August 2017 (Senior Application Developer)

- Built and maintained enterprise tools (CRM, Quoting, Billing, Commissions) using PHP, Zend Framework 1/2, Doctrine, and PostgreSQL
- Optimized complex SQL queries for performance gains and application efficiency
- Developed dynamic reporting systems with PHP, JavaScript, and Zend 2, deploying via Apache/Nginx with Git and Composer
